Sir,

I have the honor to solicit sanction for the Construction of a Musafirkhana at the Railway Station at Banawar, similar to the one now in existence at Arsikere. The town of Banawar is two miles away from the Station and passengers that alight there find it very inconvenient, as they have to halt there for the whole night and go on in the following morning. Many of the "people" that alight there consist of those

those that travel from Dharma Stala" and other places in the South Kanara District to Tirupati in the District of North Arcot.. The majority of passengers that alight in the station travelling from Bangalore side are generally those that have to go to Belur. Only a few are for Banawar town. The number of travellers amounts from 10 to 15 every day.

2 — Mr. Groves, the Railway Secretary also personally spoke to me about the necessity of Con-structing a Musaferkhana. I therefore beg that you will obtain sanction of Government for this Musaferkhana.-

3 — A drinking water well is also needed there and sanction is also solicited for sinking one at

Sir,

With reference to your docket
Nº 12564 dated 21st ultimo,
L.F. 343-92
enquiring from what fund the
construction of a Musafer Khana
and a well near the Railway
Station at Banavar should
be built, I have the honor to
state that the Municipal fund
of Banavar Town is very
limited and cannot be uti-
lized as also the District fund
balance at the credit of the
District which is not large
and if possible may not be

encroached.

I understand that the Musquash Harbour road to the Railway Station at Lakeside was built out of Provincial funds and that the works above alluded to have to be made out of Provincial funds and I therefore request you will be good enough to obtain sanction of Government as solicited.

Sir,

According to Government Proceedings No. 12833 / L.F. 343-92 Dated 1st ultimo, I have the honor to submit herewith copies of Estimates and Plan of the Dhoopa Perthana, recently built near the Railway Station, at Arsikere, together with an Estimate and Plan for the one near the Banawar Station, received with Hassan Division Executive Engineer's Docket No. 419 Dated 2d Instant, also sent herewith.

I beg to state that the difference in cost is Rs 1,942. The proposed Musafirkhana for Banawar does not provide for separation of castes and bath rooms are not provided, but these bath rooms may be provided. &c.

Commodation for the separation of castes seems essential. This is secured in the one built at Arsi. Here, where one set of apartments could not be seen by another and each has its own access.—
